Note: Due to HUD data access limitations, the vouchers in use are as of December 2025 and the average per voucher costs are as of September 2025. Additionally, the agencies we present in this table are “potentially” in shortfall because the HUD financial data we relied on are from March 2025 and conditions may have changed since then for these agencies.

* Voucher costs have been rounded to the nearest dollar.

† Estimates have been rounded to the nearest thousand dollars.
