

Table 1
Perinatal Program Utilization Rates of Fee-for-Service Plans During Pregnancy and Postpartum Periods During 2018 Through 2022 Have Improved

| YEAR | UTILIZATION PERCENTAGE | |
|------|------------------------|--------------------|
| | DURING PREGNANCY | 60 DAYS POSTPARTUM |
| 2018 | 29.6% | 10.3% |
| 2019 | 44.4 | 17.9 |
| 2020 | 54.6 | 19.1 |
| 2021 | 50.3 | 18.2 |
| 2022 | 56.3 | 15.7 |

Source: Analysis of Health Care Services' Medi-Cal claims data obtained in June 2023.

Note: We identified roughly 1 million pregnancies between 2018 and 2022. Medi-Cal members may appear in the calculations for multiple years if they had more than one pregnancy.
